GSEA GO BP, ED_IVP_vs_IVV
activated
suppressed
animal organ morphogenesis
protein glycosylation
macromolecule glycosylation
glycosylation
protein lipidation
glycerolipid metabolic process
embryo development
cellular lipid metabolic process
glycoprotein biosynthetic process
cell−cell signaling
lipid biosynthetic process
anatomical structure morphogenesis
neurogenesis
system process
glycoprotein metabolic process
neuron differentiation
generation of neurons
nervous system development
animal organ development
establishment of protein localization
